The Caretaker at URC, Dave O'Mara is waiting for an appointment to go into hospital. He doesn't know how serious this is or how long he will be out of action.

It could be that he will receive a message asking him to go into hospital within 24 hours. If this happens, we may not be able to use URC for meetings. If this affects any of our meetings, I will contact all members immediately.

Two little curiosities for you this month.

The Australia animals issue often has two shades of orange/brown, but how unusual is the stamp with brown omitted?

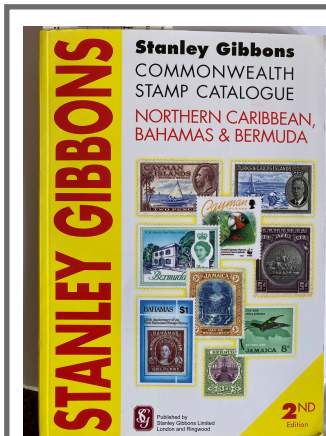

Can someone identify the bearded fellow for me?

Richard Hindle has a UV lamp, but it doesn't seem to show the recognised effect when he is using it.

He would like to borrow a UV lamp which has both long and short wave facilities for a couple of weeks, i.e. between meetings, to check if he is either using the wrong frequency lamp or if the bulb in his own lamp needs replacing.

If anyone would like to offer an article, quiz, puzzle or interesting image, please send it to me.

Short news items or questions for the members would also be welcome.
